

FAQS

What about academics? Won't my child fall behind?

The beauty of our T+ program is that it is structured in a way that it combines Tahfeez with academics. We have qualified teachers who teach the core academic subjects (Science, Math, English Language Arts, and Social Studies), and we follow the same TEKS-aligned curriculum used in public and other private schools.

How long does it take for a student to complete memorization of the Quran?

Each student is unique, and we believe students should be allowed to proceed at the pace they are comfortable with, to the best of their ability. However, generally, students take about 2 to 3 years to memorize the entire Quran.

What does T+ stand for?

The 'T' stands for Tahfeez, the basis of our program, and the plus denotes everything else our students learn in addition to the Quran: state-aligned academics, Islamic knowledge and manners, and extra-curricular activities.

TESTIMONIALS:

"I really appreciate the emphasis on manners and akhlaq at Quba, which I don't see in other Islamic schools. One of the main reasons that I am happy with Quba is because I feel I can trust the administration and school staff. I know they are sincere and dedicated to their mission, and always giving their best effort."

-Mrs. Mona Islam (mother of Hafiz Ibrahim Islam)
